Who we are · Who they are

Who we are

Soil Seed & Water produces organic bagged soil, mulch, compost, and amendments in Phoenix, Arizona. We supply retail partners through Organic Soil Wholesale — yard pickup, pallets, and qualifying delivery.

Who they are — box stores & hardware retail

Hardware stores, co-ops (Ace, True Value, etc.), garden centers, and nurseries that **buy for resale** on the retail floor — any store moving bagged product to consumers.

- Care about **pallet MOQ**, margin, and **supply consistency**
- Decision makers: buyer, category manager, store owner

Not this segment: Home gardeners (retail MSRP at yard), landscapers (bulk/commercial), and schools/nonprofits (separate programs). Confirm store type before quoting distributor pricing.

Store types to confirm

- Hardware / home center / co-op
- Garden center with retail floor
- Nursery selling bagged goods to walk-in customers
